Pump House

Monthly Newsletter

See you at Chillventa!

We are excited to invite you to our stand Hall 4, Stand 227 to explore our comprehensive range of MEP products and discuss the possibility of becoming a distributor in your country or region. To book an appointment, please send us an email to marketing@pumph.co.uk

We could take you to Kuala Lumpur

Kuala Lumpur is one of the most dazzling cities in the world and we would be delighted if you could join both Pump House and Little Giant on this trip. Your winning ticket covers travel, accommodation and grandstand seats at the Sepang International Circuit in Kuala Lumpur for the Motorcycle Grand Prix November 2018.

New and improved range of Aerosols

We are proud to present our re-branded range of Aerosols. These professional products are the perfect blend of high performance and excellent economy. The range has seen improvement in the formulation, fragrance, name and appearance.

People in Business: Courtney Wright

We would love to introduce to you our new CAD Technician – Courtney Wright, who joined our company a few weeks ago.

For the past three years Courtney has worked within a large Structural Consultancy as a Trainee Technician, before moving to an Architectural Metalwork firm as the Drawing Office Assistant.

She was contacted by Tony, our Product manager, who found her CV on CV-Library. Courtney will be producing Flexi Frame assembly drawings and quotes from all incoming quotes. She will be working closely with the Flexi System Product Management team.

Courtney enjoys cooking and spending time with family and friends. We also asked her about any significant achievements:

"I reached the World Championships in street dance with my dance crew, this was a huge achievement after all the hard work we put in!"

If you wish to contact Courtney you can do so below.
