HVACR Products Guide

pump house

a DIVERSITECH® company

WHY PUMP HOUSE?

Products

We strive to deliver to you, our customers, the best products on the market, constantly innovating and improving. Our products are designed to save you time. We are the only company which covers the ancillary range for the HVACR market. **Your one stop shop!**

Wow factor

We are the solution provider for your logistic requirements. We listen to your requirements and provide the fastest response time within the industry. 95% of our Flexi Support Enquires are responded to within four working hours. **Try our service now!**

Experienced staff

We understand that each customer need is unique. Our team at Pump House respect and consider it in every decision we make. Face to face, over the phone or electronically - we are here to serve. Our sales and technical teams set the highest standards.

Technical Experts

We believe that delivering exceptional technical support is crucial to the success of our customers. All our staff are technically trained; we have a team of people ready to help you.

International

Globally connected operations within 30 countries across 5 continents. Customising our products and services to suit the individual needs of our international customer base.

Charitable Giving

We continue to support local charities such as Maytree Respite Centre whose voluntary work is inspiring and unconditional.

PUMP HOUSE PROVIDE THE

1. We answer all calls into the business within THREE rings

2. We acknowledge all orders with a 'THANK YOU' phone call and an order confirmation email

3. All after visit requests from our Area Sales Managers are actioned within 60 minutes

4. We respond to 95% of all our Flexi Support Systems enquiries within 4 working hours

5. Any customer requesting a quotation will receive a follow up call after the quotation has been sent

6. We send catalogues and new literature with all orders to ensure our customers are kept up to date at all times

Refrigeration

Dairy Cabinet Supermarket Pumps

The Pump House dairy cabinet supermarket pumps can fit under low display cabinets due to being just 76mm in height. The multiple inlets offer a variety of installation options for the contractor.

DCP-30V

DCP-30A

Code	Brand	Description	Tank Capacity	Max Flow	Dimensions mm (HxWxD)	Discharge Size (inches)
DCP-30A	Pump House	Dairy Cabinet Pump (Standard)	5.5 litre	700LPH	76x200x 610	1/2
DCP-30E	Pump House	Dairy Cabinet Pump (No Lid)	5.5 litre	700LPH	76x200x610	1/2
DCP-30V	Pump House	Dairy Cabinet Pump (Vertical)	4.5 litre	700LPH	200x580x76	1/2

Evaporator Tray

A thermostatically-controlled cast aluminium tray designed to collect and evaporate condensate water. Ideal for refrigeration display cabinets.

ET-150

Code	Brand	Description	Tank Capacity	Evaporation Rate	Dimensions mm (HxWxD)	Weight
ET-150	Pump House	Evaporator Tray	1.5 litres	150ml per hour	90x320x120	1.1kg

sales@pumph.co.uk +44(0)115 900 5858

Vibration Absorber

Designed for the installation of the suction and discharge lines of air conditioning and refrigeration systems. Used to dampen compressor-induced vibrations and reduce the damage to the system's pipe work.

Part Code	Description	Tube OD (inches)	Tube OD (mm)	Max. Working Pressure (psiG)	Burst Pressure (psiG)
VIBA-1/4	Vibration Absorber 1/4 (6mm)	1/4	6mm	650 (44.8 bar)	3250 (224 bar)

Klo-Shure® Clamps - Series 7

Klo-Shure® eliminates having to double-wrap, glue and tape the insulation on strut-mounted clamps. Klo-Shure insulation coupling reduces the time required to insulate copper tubing used for refrigerant lines. The patented clamp allows sections of closed-cell insulation to be secured at fixing points.

Refrigeration

Universal Multi-Fit Fan Motors

Universal, multi-fit fan motors are individually boxed and come complete with fixings. The 1 metre power cord offers flexibility during installation. CE certified / ROHS-2 compliant.

Code	Description	Watts	Voltage	Frequency	Revs	Cable Length
FM-5W	Universal Multi-Fit Fan Motor – 5W	5W	240V	50/60Hz	1300/1500 rpm	1m
FM-7W	Universal Multi-Fit Fan Motor – 7W	7W	240V	50/60Hz	1300/1500 rpm	1m
FM-10W	Universal Multi-Fit Fan Motor – 10W	10W	240V	50/60Hz	1300/1500 rpm	1m
FM-16W	Universal Multi-Fit Fan Motor – 16W	16W	240V	50/60Hz	1300/1500 rpm	1m
FM-18W	Universal Multi-Fit Fan Motor – 18W	18W	240V	50/60Hz	1300/1500 rpm	1m
FM-25W	Universal Multi-Fit Fan Motor – 25W	25W	240V	50/60Hz	1300/1500 rpm	1m
FM-34W	Universal Multi-Fit Fan Motor – 34W	34W	240V	50/60Hz	1300/1500 rpm	1m

Tangential Fan Motors

Tangential single-impeller fan motor assemblies with aluminium blades. Individually boxed complete with fixings. CE certified / ROHS-2 compliant.

Code	Description	Watts	Blade Length	Rotate Speed	Air Flow
FMTS-15W-120	Tangential Fan Motor 15W with 120mm Blade	15W	120mm	2200rpm	80m³/h
FMTS-20W-120	Tangential Fan Motor 20W with 180mm Blade	20W	180mm	2000rpm	120m³/h
FMTS-30W-240	Tangential Fan Motor 30W with 240mm Blade	30W	240mm	2100rpm	170m³/h
FMTS-30W-300	Tangential Fan Motor 30W with 300mm Blade	30W	300mm	1900rpm	190m³/h

Axial Fan Motors

Axial shaded fan motors have a compact structure and small volume. Lightweight, low noise and used on refrigeration equipment. Individually boxed. CE certified / ROHS-2 compliant, these motors have an ambient operating temperature -20°C to +60°C

Code	Description	Watts	Voltage	Frequency	Revs	Cable Length	Air Flow	Db(A) Rating
FM-A-8038-L	Axial Fan Motor – 15W (with lead)	15W	240V	50Hz	2200rpm	30mm	40m³/h	23.4
FM-A-12025-L	Axial Fan Motor – 13W (with lead)	13W	240V	50Hz	1800rpm	30mm	71m³/h	35.6
FM-A-12038-L	Axial Fan Motor – 20W (with lead)	20W	240V	50Hz	2500rpm	30mm	132m³/h	37.3
FM-A-12038-T	Axial Fan Motor – 20W (with terminal)	20W	240V	50Hz	2500rpm	-	132m³/h	37.3

Code	Description	Watts	Dimensions in (mm)		
			Height	Width	Depth
FM-A-8038-L	Axial Fan Motor – 15W (with lead)	15W	80mm	80mm	38mm
FM-A-12025-L	Axial Fan Motor – 13W (with lead)	13W	120mm	120mm	26mm

Fan Motor Assemblies

A complete range of pressed aluminium blades, fan rings, guards and brackets to suit our range of multi-fit fan motors. Available in a variety of diameters and pitches to suit most refrigeration applications. All accessories can be sold as individual items or as a complete assembly combined to create your own fan requirements.

Rotary Enclosed Isolators

Our insulated 3 and 4 pole rotary enclosed isolators are CE marked and suitable for disconnecting the power supply to outdoor air conditioning units.

The isolators are weatherproof to IP65, easy to install and conform to IEC 60947-3. They have a lockable off position and interlocking cover which can be removed only in the off position. Earth and neutral terminals included and M20/25 knockouts up to 63A.

Code	No. of poles	Amps AC21	AC23A 240VA	AC23A 400VA	Cable Capacity Solid	Cable Capacity Stranded	Height	Width	Depth

Easy~Fit Protective Housings

Easy~Fit housings are manufactured in two sizes and are ideal for all brands of outdoor refrigeration condensing equipment.

The steel goes through an 8-phase epoxy polyester powder coating process and is finished with a scratch resistant textured finish in RAL 7032.

Code	Size	External Dimensions mm (HxWxD)			Internal Dimensions mm (HxWxD)			Weight

CH-L	Large	550	810	720	460	740	640	30kg

Refrigerant ID Labels

A range of self adhesive vinyl labels. Each label indicates the type of refrigerant and come in a handy pack of 10. We also supply pipe labels. Avoid costly mistakes by properly identifying the type of refrigerant contained in recovery cylinders and air conditioning and refrigeration equipment. Contact us for more information.

Air Conditioning

NEW

Dairy Cabinet Pump with IP54 splash-proof enclosure

- Industry leading IP54 dairy cabinet pump
- 1/2" barbed hose tail – for easy connection
- Multiple inlet options (top, end or side)
- Power and alarm cables pre-fitted
- High discharge head and flow rate suitable for most applications
- Splash-proof enclosure
- One year warranty

Pressure Relief & Boiler Condensate Pump - PRVSure

This pump is manufactured from high temperature plastic, and comes complete with 10m of higher specification hose.

It meets EN Standards and can handle temperatures up to 110 degrees. Supplied with 10 metres of 'no sag' high grade braided hose. The unique design also cools the PRV discharge so it is safe for use with solvent weld pipework. For installers who are audited or working to EN Standards.

PH-3.8L-HW

Code	Brand	Description	Max Head	Max Flow	Temperature	Dimensions mm (HxWxD)	Discharge Size
PH-3.8L-HW	Pump House	Pressure Relief & Boiler Condensate Pump	8m	312LPH	110°c	249x325x160	3/8 inch (9.5mm)

High Temperature Pressure Relief Pump - PH-5L-HW

Designed for unvented cylinder T&P discharge and steam humidifiers. Having one of the largest discharge rates of 32 litres per minute this pump can handle both high temperature up to 100 degrees and high flow rates.

Manufactured in the UK this heavy duty, high temperature tank pump incorporates thermal overload protection and a high level alarm switch.

PH-5L-HW

Code	Brand	Description	Max Head *	Max Flow	Temperature	Dimensions mm (HxWxD)	Discharge Size

Adaptors

Pump House stock a range of adaptors to connect the unit and pump.

Code	Description	Pump Type Application	Pack Qty
ADAP-CAC-S	Cassette Adaptor – Small (Green) 3/4" x 1"	Tank Pump	3 Pack
ADAP-CAC-M	Cassette Adaptor – Medium (Blue) 3/4" x 1-1/4"	Tank Pump	3 Pack
ADAP-CAC-L	Cassette Adaptor – Large (Black) 3/4" x 1-1/2"	Tank Pump	3 Pack
ADAP-CAC-X	Cassette Adaptor – Multipack	Tank Pump	3 Pack
ADAP-1	Condensate Drain Adaptor – 22mm to 3/8"	Tank Pump - 9.5mm (3/8") outlet	Single
ECOP-ADAP	Condensate Drain Adaptor – 16,18,22,35mm to 1/4" Hose	All Pumps	Single
CV-38-3	Non-return check valve – 3/8" (9.5mm)	Tank Pump - 9.5mm (3/8") outlet	3 Pack
CV-14-3	Non-return check valve – 1/4"	Tank Pump - (1/4") outlet	3 Pack
PH-PUMP-NRV	Non-return check valve – 3/8" (9.5mm)	Tank Pump - 9.5mm (3/8") outlet	Single
154724	Non-return check valve – 3/8" (9.5mm)	VCMX-20s pump	Single

Self-Sealing Pipe Adaptor

The self-sealing adaptor is used to form a connection between condensate hose and a soil & vent pipe. Drill a 13mm hole (for SVA-3) or a 10mm hole (for SVA-6), insert and twist in to seal the connection.

SV-ADAPTOR

SV-ADAPTOR-6

Code	Description	Pack Qty
SVA-3	Self-sealing pipe adaptor – 6mm & 9.5mm (1/4 & 3/8) hose to soil & vent pipe	3 Pack
SV-ADAPTOR	Self-sealing pipe adaptor – 6mm & 9.5mm (1/4 & 3/8) hose to soil & vent pipe	Single
SVA-6-3	Self-sealing pipe adaptor – 6mm (1/4) hose to soil & vent pipe	3 pack
SV-ADAPTOR-6	Self-sealing pipe adaptor – 6mm (1/4) hose to soil & vent pipe	Single

Audible Alarm

This audible alarm can be wired into all pumps with a high level alarm switch.

Code	Brand	Description	Pack Qty
AUDIBLE ALARM	Little Giant	Audible Alarm for all pumps with a high level alarm switch	Single

Condensate Braided Hose

Our reinforced PVC braided hose is suitable for condensate drains and comes packaged in clear shrink wrap for protection and easy storage. The black hose has no light penetration, which prevents build up of mould growth.

Available in clear and black, in 6m & 30m coils.

Condensate Cop™

Condensate Cop™ is a unique clamp-on float switch intended for HVAC drain pan installation. The Condensate Cop™ features a large over-clamping area that fits easily over the edge of all types of drain pans; including formed plastic and galvanized sheet metal. A separate float/probe assembly swivels to accommodate drain pans having sloped sides. The swivel action allows the installer to position the float switch for best operation and then clamp it into place. The probe features an inlet grill which prevents the float from being blocked or damaged by insulation or other debris. Sealed inside the probe is a magnetically actuated normally closed switch. The switch opens when rising water presents a potential flooding condition.

Code	Description	UOM	Master Qty
CC-1	Condensate Cop™ Drain Pan Switch	Each	12

CS1200 AC Shutoff Switch

The CS1200 is an easy to install, reliable, condensate overflow detection switch. Featuring a unique universal pan mount design to assure accurate detection in metal or plastic secondary drain pans.

CS1200	AC Shutoff Switch	Each	12

Drain Dawg™

The Drain Dawg™ is a complete condensate drain cleaning kit, including the CT-475M deluxe nitrogen / CO2 0-475 psi regulator, the TG-10 & BS-25 ten foot hose and blowgun assembly, and the CW-15 fifteen inch whip hose. Also included is the AP-DD Drain Dawg™ Accessory Fitting Kit which contains the DF-75 Drain Dawg™ inflatable tip, the CK-141 3/4"-1" cone fitting, the FA-02 CO2 to nitrogen adaptor, the QN-S3 needle tip, and the TC-25 tyre chuck.

Magnetic Drive Pumps - MD-SC / MD-HC Series

Little Giant magnet driven pumps feature a leak proof design that allows the pumps to be used in a variety of applications where continuous and reliable operation is desired and when pumping corrosive liquid is necessary.

The MD-SC Series is designed to pump mild to strong acids found in electroplating applications with temperatures up to 66°C. The MD-HC series can pump strong acids and alkaline solutions, including sulphuric nitric and hydrochloric acid with temperatures up to 93°C. In addition, the HC series offers "Run Dry" protection.

Pool Cover Pump - APCP-1700 (577309)

Little Giant Pool Cover Pumps help safeguard and protect the pool cover from prolonged accumulation of rain or melting snow. This automatic version is certified for use on pool covers, all of which can attach to a standard garden hose for easy water removal. It removes standing water from pool covers and is ideal for household water transfer applications.

Condensing Unit Guards

Easy~Fit Condensing Guards

Pump House manufacture a range of weather-resistant, steel mesh guards, offering a safe solution to vandalism and accidental damage of your expensive AC unit or ASHP. The range is ideal for all manufacturers of air conditioning and air source heat pump units. The unique sliding panel system allows for easy installation, which are secured into place when the front panel is fitted. Back panels are also available to make the guard free standing. For wall mounted units, we can offer a base panel for full security.

Easy~Fit Brackets

Pump House offer a range of flat packed brackets, the Type 1 bracket has uprights and mounts directly onto the wall. Type 2 comes with a crossbar so that the uprights can be spaced exactly as required. The integral spirit level makes installation easier. Type 3 brackets have a unique interlocking mechanism enabling the arms to be joined in a matter of seconds.

For improved corrosion resistance all metal receives a 100% zinc plating, followed by a hard ED coating, before being finished with an external grade polyester textured powder coating in RAL 7032.

For lighter condensing units we offer an economy version. This incorporates the traditional crossbar style for easy spacing of the support arms. We also offer a range of stainless steel brackets, which are recommended for coastal locations exposed to sea salt or in corrosive environments.

Code	Size	Description	Crossbar mm	Upright mm	Support Arm mm	Safe Working Load*	Max Load	Weight

* All brackets are tested to twice the safe working loads at an independent UK facility.

Condensing Brackets & Trays

Cantilever Arms / Cantilever Arm Kits

These ready-made, hot dipped galvanised steel cantilever arms with 14mm diameter holes, offer a quick and easy method of supporting condensing units on external walls. Available in straight or webbed versions, in a variety of lengths. This is a low cost option to mounting AC units or ASHP's The cantilever arm kits come with all of the fixings needed for a quick and easy installation.

Mounting Blocks

These mounting blocks are lightweight, 100% rust-free, UV stabilised and manufactured from reinforced PVC. Suitable for mounting air conditioning units and domestic air source heat pumps.

The blocks reduce vibration and are supplied with anti-slip strips on the base along with fixings for a simple rapid installation. End caps are available to provide a professional finish. CMB-350 & CMB-450 are sold in boxes of 12. CMB-1000 are sold in pairs.

Code (Black)	Code (White)	Description	Dimensions mm (HxWxL)	Weight	Safe Working Load*

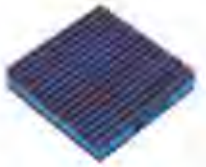
Mounting

EVA™ Pads / Cork Rubber Anit-Vibration Pads



EVA™ anti-vibration pads are designed to effectively eliminate vibrations and reduce noise levels from equipment such as compressors, condensing units and air source heat pumps. Out performing cork and rubber by 3:1, the EVA pad has a special composite foam centre and is resistant to most oils & chemicals.

The cork is laminated between two corrugated pads to reduce vibration and noise. Designed to withstand 3.5kg per cm². Ideal for air conditioners, compressors, cooling towers or anywhere where vibration control is needed.

Code EVA	Code Cork / Rubber	Description	Dimensions mm (HxWxL)	Weight	Safe Working Load*
MP-2E	MP-2C	Pad – 50mm	20x50x50	0.04kg	3.5kg per cm²

MP-18E	MP-18C	Pad – 460mm	20x460x460	3kg	3.5kg per cm²

Rubber Anti-Vibration Pad

Highest quality oil resistant pads, designed to withstand 3.5kg per cm². The rubber pads are corrugated on both sides. Ideal for air conditioners, compressors or anywhere where vibration control is needed.

Code	Description	Dimensions mm (HxWxL)	Weight	Safe Working Load*
MP-2	Rubber Anti-vibration Pad – 50mm	20x50x50	0.04kg	3.5kg per cm²
MP-3	Rubber Anti-vibration Pad – 80mm	20x80x80	0.05kg	3.5kg per cm²

MP-18	Rubber Anti-vibration Pad – 460mm	20x460x460	1.8kg	3.5kg per cm²

ISO-Cube Anti-Vibration Pads

Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18" (46cm) pad is divided into eighty-one 2" (5cm) segments, each of which may be cut or torn to provide smaller pads.

Code	Description	Dimensions mm (HxWxL)	Weight	Safe Working Load*
ISO-2	ISO Cube Natural Rubber Pads – 50mm	20x50x50	0.6kg	12.6kg per cm²

Quick Sling®

Quick Sling stands offer light and easy-assembly support for outdoor a/c condensing units and heat pumps. Ideal for raising the condensing unit height in surface installations. The elevated height allows for ease of installation, maintenance and service. Available in three height options.

- Flat-packed for easy handling, transport and storage
- Quick and easy to assemble
- Adjustable to suit outdoor units with fixing feet centres up to 700mm (L) and 430mm (W)
- Each 150mm square foot is height adjustable (up to 30mm) to accommodate uneven surfaces
- Includes anti-vibration mounting bolts
- Epoxy powder coated finish

Portables - Cool Only & Heat / Cool Pump

The portable air conditioners are suitable for offices, computer rooms and light commercial use. The cooling only model is ideal for cooling flats, conservatories or loft conversions during hot summer months. The heat and cool model can be used as an energy efficient form of heating along with cooling. The units come with a hose, tray, remote control and wall kit. Spare parts are available upon request - please enquire for more details.

Through-The-Wall Air Conditioner

Wall air conditioners, also known as through-the-wall or in-wall air conditioners, are designed to be a long-lasting fixture. These 12,000 btu air conditioners are mounted into a hole in the wall as a permanent installation. Meets EN14511 standard and EU commission regulation 206/2012. R32 Refrigerant. Supplied with remote controller, this proven, well tested design is suitable for areas up to 23m².

Cushion Clamps

Cushion Clamps are the industry established method of supporting copper refrigerant tube, especially for multiple pipe runs. The zinc dichromate plating provides excellent corrosion resistance and the polymer insert ensures a positive grip, absorbs shock and vibration and prevents galvanic corrosion.

Code	Pipe Diameter	Diameter
CC-004	1/4	10
CC-006	3/8	10
CC-008	1/2	10
CC-010	5/8	10

CC-066	4-1/8	5

Threaded Rod Hangers

These clamps support a pair of flow and return insulated copper air conditioning pipes on either M8 or M10 threaded rod. By simply squeezing the tips together, the spring steel rod hanger can be fitted or adjusted in seconds, even after the refrigerant pipes have been installed. Black zinc coating matches the insulation colour and offers corrosion resistance

Code	Description	Liquid Pipe Diameter (inches)	Gas Pipe Diameter (inches)	Threaded Rod Diameter (inches)	Pack Quantity
TRH-1	Threaded Rod Hanger – Size 1	1/4	1/2	M8/M10	10
TRH-2	Threaded Rod Hanger – Size 2	3/8	5/8	M8/M10	10
TRH-3	Threaded Rod Hanger – Sze 3	1/2	7/8	M8/M10	10
TRH-4	Threaded Rod Hanger – Size 4	5/8	1-1/8	M8/M10	10

Grip Fit Clamps

The asymmetric design provides a perfect fit for any one of four pairs of flow and return insulated refrigerant pipes. An 8mm hole allows the clamps to be fixed directly to any flat surface, such as a wall or ceiling. The hinged design allows the product to be installed quickly.

Code	Description	Liquid Pipe Diameter (inches)	Gas Pipe Diameter (inches)	Pack Quantity

RPC-0138	RPC Channel Clip	1-3/8	10
RPC-0158	RPC Channel Clip	1-5/8	10

RPC studding clips

The studding clips from RPC have a unique way of attaching themselves to the threaded rod.

Simply insert the clip and snap to secure. The ratchet design locks the pipework in place. It will overcome the problems of using cable ties for piping, electrical, optical and network cabling.

RPC InsulClips

The InsulClips allows an uninterrupted vapour seal and eliminates the problem of sweating on metal fittings.

This makes the InsulClip the ideal product to secure the installation of the refrigerant pipes, allowing the vapour seal to run the length of the pipework without cutting the insulation material.

Made from a composite polyamide (nylon) alloy, which has similar tensile strength properties to nylon but better impact strength, especially at low temperatures.

Code	Tube OD (inches)	Pack Quantity

RPC Cable Tie Clips

Channel cable tie clips accommodate PVC or metal cable ties up to a width of 17mm. They come in three support base lengths of 50, 65 and 80mm. The channel clips are secured on the channel with a twist lock motion, ready for the cable tie to be inserted to secure the refrigeration pipework.

Clips can be used in temperatures ranging from -40 to 140°C. They have a melting point of 220°C. They can withstand pressures up to 40 MPa, with less than 4% deformation, and provide high resistance to mechanical stress creep. As well as resisting all know solvents, the clips have a low moisture sensitivity.

They also have stable electrical and vibration properties and a high resistance to UV light.

CTC-080	80	10

Bronco® Insulation Tube & Pipe Saddle

Put piping in its place with Hydra-Zorb's saddle for insulated tube and pipe. Our patented saddle is one piece, secure, and ultra-fast to install. Requiring no tools or assembly, Bronco® is made of high-strength plastic, making it one of the most stable products on the market. Bronco® fits perfectly on any industry standard anchor channel and includes a self-tapping screw locator. Easy to install onto the channel. Available in white or black to match insulation.

Technical Specification

High strength polypropylene copolymer (PPC)
UV resistant
Temperature range -40 to 178°F

5 Litre Concentrated Cleaners - PRO RANGE

Already established as a leading brand of professional coil cleaning and maintenance products, the DiversiTech PRO-RANGE of concentrated coil cleaners are designed to provide outstanding cleaning results combined with minimal environmental impact and maximum economy. Pro Universal is registered as NSF Food Safe, making it ideal to use in and around food processing areas.

Code	Description	Size	Suitable for use on ...
PRO-UNIV-GB	Concentrated – Indoor & Outdoor NSF Registered Food Safe Coil Cleaner	5 Litre	Condensers / Evaporators / Air Filters
PRO-FOAM+GB	Concentrated – Heavy Duty Alkaline Based Condensing Coil Cleaner	5 Litre	Condensers
PRO-CARE-GB	Concentrated – Evaporator Coil Cleaner with Disinfectant	5 Litre	Evaporators / Protecting & Disinfectants
PRO-CLEAN-GB	Concentrated – Alkaline Based Evaporator & Condensing Coil Cleaner	5 Litre	Condensers / Evaporators
PRO-COOL-GB	Concentrated – Non-Odour Liquid Ice Machine Cleaner	5 Litre	Ice Machines
PRO-SCALE-GB	Concentrated - Lime Scale Remover	5 Litre	Condensers / Exchangers
PRO-GREEN-GB	Concentrated - Environmentally Friendly Indoor and Outdoor Coil Cleaner	5 Litre	Condensers / Evaporators / Air Filers

1 Litre Pre-Mixed Cleaners G2G RANGE

The DiversiTech G2G-RANGE (Good to Go) are pre-mixed coil cleaners in a 1 litre convenient trigger bottle for quick and easy application.

G2G Universal is registered as NSF Food Safe, making it ideal to use in and around food processing areas.

Code	Description	Size	Suitable for use on ...
G2G-UNIV-GB	Pro Universal Pre-Mixed Coil Cleaner	1 Litre	Condensers / Evaporators / Air Filters
G2G-FOAM+GB	Foaming Alkaline Based Pre-Mixed Coil Cleaner	1 Litre	Condensers
G2G-CARE-GB	Liquid Coil Cleaner with Disinfectant	1 Litre	Evaporators / Protecting & Disinfectant
G2G-GREEN+GB	Environmentally Friendly Pre-Mixed Coil Cleaner	1 Litre	Condensers / Evaporators / Air Filter
G2G-BUBBLE-GB	Bubble Up Leak Detector Pre-Mixed	1 Litre	Leak Detector

Aerosols

Pump House are proud to present our re-branded range of aerosol cleaners. These professional aerosols are the perfect blend of high performance and excellent economy.

The range has seen improvements in formulation, scent, name and appearance.

Code	Description	Size	Suitable for use on ...
AER-D-600	Coil Clean - Universal Coil Cleaner	600ml	Condensers / Evaporators
AER-F-600	Coil Foam - Heavy Duty Condenser Cleaner	600ml	AC & Refrigeration Condenser Coils
AER-I-600	Coil Care - Evaporator Cleaner & Disinfectant	600ml	Condensers / Evaporators
AER-C-600	Case Clean – Case, Fascia & Glass Cleaner	600ml	Fan Coils, Cassette Units & Boiler Cases
AER-O-500	Grease Buster – Solvent Based Cleaner & Degreaser	600ml	Fan Coils, Cassette Units & Boiler Cases
AER-B-500	Leak Seek – Bubble Up Detector Spray	500ml	Leak Detector

Odour Elimination

The Smell Buster range is a unique odour elimination product that effectively neutralises bad smells in air conditioning systems.

Available in 1 Litre pre-mixed spray bottles, 60g twin pack, 12g ten pack and 225g tray.

Code	Description	Size	Suitable for use on ...
SMELL-BUSTER-SMALL	Smell Buster – 12g tables (pack of 10)	12g (pack of 10)	RAC Systems
SMELL-BUSTER	Smell Buster – 60g tables (pack of 2)	60g (pack of 2)	RAC Systems
SMELL-BUSTER-8	Smell Buster – 225g (Tub)	225g (Tub)	RAC Systems
G2G-SMELL-BUSTER	Smell Buster Pre Mixed	1 Litre	RAC Systems

Compression Sprayers

Various hand held and compression sprayers are available for applying coil cleaners to the coils. Designed for a fast and easy application

Code	Description	Capacity
1002	Hand Held Sprayer	1.4 Litres
2601	Compression Sprayer – 1 Gallon	3.8 Litres
2602	Compression Sprayer – 2 Gallon	7.4 Litres
2603	Compression Sprayer – 3 Gallon	11.4 Litres

Power Sprayer

The DiversiTech PS-1 portable power sprayer is a highly efficient machine designed for fast and easy application of coil cleaning products. Powered by a 12V/10Ah rechargeabe battery, the sprayer saves labour time and is up to 3 - 4 times more efficient than a conventional compression sprayer. The sprayer can be operated continuously for up to 10 hours, included are three changeable nozzles to give you the right spray for any situation.

Code	Description	Capacity
PS-1	Rechargeable Backpack Sprayer	15.2 Litres

Diversi-Flush™

Dirty and contaminated system? We have a unique system and line cleaning solution, ideal for dealing with compressor burn outs, R22 retrofits and equipment upgrades and replacements.

Effectively removes all traces of residual oil and contaminants, this easy-to-use kit includes everything needed to quickly and effectively clean the entire system.

Code	Description	Size	Suitable for use on ...
PF-KIT-EU	Diversi-Flush HVAC Flushing Kit – includes refill	480ml	Compressor Burnouts, R22 retrofits, upgrades
PF-16-EU	Diversi-Flush Solvent Refill	480ml	Compressor Burnouts, R22 retrofits, upgrades
PF-ADAPTOR	Line Set Adaptor		Compressor Burnouts, R22 retrofits, upgrades

DrainGun™

Blocked drain line - no problem with our DrainGun™ This lightweight, portable tool is designed to unblock condensate drain lines and other pipework instantly.

Simply insert a CO_2 cartridge in to the DrainGun and with a press of the trigger, SWOOSH, 800 psi of food grade CO_2 blows the blockage out.

Code	Description	Size
GG-1	Drain Gun Line Cleaner	Single Pack
GGC-6	Drain Gun – Pack of 6, CO^2 Cartridges	Pack of 6
GG-1A	Drain Gun – Adaptor Kit – for larger tubes, oil lines and 90 degree angles	3 adaptors
GG-1H	Drain Gun – Hose Assembly	Single Pack

Nitrogen Purge Tool

The DP-1 Nitrogen Purge Tool is a quick and easy way to purge copper pipes with nitrogen. Connect and turn the dial, this switches to a very low flow of nitrogen to braze the copper. It has a durable aluminium design so you can just throw it into your tool bag when you are done.

Code	Description	Qty	Suitable for use on ...
DP-1	Nitrogen Purge Tool	1	Purging and controlling the flow of nitrogen through pipework during brazing

Universal Copper Spun Driers

Manufactured with the latest generation molecular sieves and compatible with many refrigerants including R134a , our universal copper spun driers can be used in all hermetic and open compressor refrigeration systems. This includes commercial and domestic refrigerators, freezers and air conditioners up to 2.0 HP. The driers are hermetically sealed with extended ends.

Code	Outlet	Inlet	Diameter	Length	Desiccant R12	Tonnage	Qty
DX-3	1/4" (6mm)	1/4" (6mm)	3/4" (19mm)	7-11/16" (195mm)	10	1/2 (1.75kW)	1

M-5	Mirror 1" x 2" Oval – extends 8-1/2"	1

Fin-Tools & SuperComb

The Multihead fin-tool conveniently straightens and cleans condenser and evaporator fins. Each nylon head slides into the master handle and tightens in place. Heads are coloured and engraved with the size for fast identification. The metal fin straighteners have heavy duty spring wire bristles. The SuperComb has 6 coloured fins. The fin brush is a plastic handled fin brush to clean condenser and evaporator fins

24-460	Pivot 33 – 28 LED Front Light / 5 LED Top	Camo	160	Each	Pack of 9

Cliplight - Clipstrip™ Torches

The Clipstrip™ range is a powerful pocket light with clip, available in colours Yellow/Black and Camo.

A waterproof aqua clipstrip is available. All models are supplied with three AAA batteries.

Code	Description	Colour	Lumens	UOM	Master Qty
111112	Clipstrip – Pocket Light	Yellow / Black	140	Each	Pack of 12
111116	Clipstrip – Pocket Light	Camo	140	Each	Pack of 12
111113	Clipstrip – Aqua Pocket Light	Yellow / Black	180	Each	Individual

Cliplight - HEMI™ Torches

The HEMI™ torches are available in Hemi Mini and Hemi Plus versions.

Available in colours Yellow & Black, these models are supplied a rechargeable cable, are super bright and have a top clip to hang the torch in most locations.

Code	Description	Colour	Lumens	UOM	Master Qty
114301	Hemi – Mini Rechargeable Light	Black	1000/500	Each	Individual
114302	Hemi – Plus Rechargeable Light	Yellow / Black	1200	Each	Individual

Torches, Lights

Cliplight Seeker™ Torches

The Seeker™ range has a mini and max version. The UV light provides a circular spotlight with wide, focused or strobing capacities.

The mini can fit easily in your pocket and runs from AAA batteries. The max runs from a rechargeable lithium battery.

Code	Description	Colour	Lumens	UOM	Master Qty
84DCPLUS	Seeker – Mini UV LED Circular Spotlight	Red	UV Light	Each	Individual
87DCPLUS	Seeker – Max UV LED Rechargeable Circular Spotlight	Red	UV Light	Each	Individual

Cliplight Focus & Strobe

The Focus & Strobe light packs a big punch for a small light. The powerful single blue LED delivers a constant or stobe beam , which can be focused for intensity.

Code	Description	Colour	Lumens	UOM	Master Qty
111201	Focus & Strobe	Blue	180	Each	Individual

Pure-Beam™ Ultraviolet Light

Pure-Beam™ ultraviolet light is designed for HVAC air disinfection and surface irradiation. The 17 watt UV-C lamp is a powerful tool to improve indoor air quality. It can be installed in the HVAC system or ductwork on either the return or supply air side of the furnace or air handler.

Exposure to Pure-Beam™ significantly reduces air contamination caused by fungus, mold, and viruses and can cleanse surfaces overcome by mold and slime. Includes the UV lamp, a UL listed ceramic base, and mounting bracket.

Code	Description	Colour	Lumens	UOM	Master Qty
UV-1	Ultraviolet Light with 24 VAC elec. Ballast	Blue	180	Each	individual

UVEC-07G	The Purifier – 12V Charger

Super Seal Premium & Platinum™ - Pro A/C Stop Leak

Super Seal Premium and Platinum seals leaks in evaporators, condensers, accumulators as well as o-rings, gaskets, metal lines and rubber hoses. Actively prevents future leaks.

Easily installed in minutes and is compatible with all mobile A/C refrigerants including R12, R134A, and R1234YF. Hose included.

Code	Description	Capacity	UOM	Master Qty
946KIT	Super Seal Premium - with Pro A/C Stop Leak	1.5oz / 45ml	Each	12
976KIT	Super Seal Platinum - with Dry R & FLASH UV Dye	1.7oz / 51ml	Each	12

RETROCHILL™

Retrochill™ is a fast and effective solution to retrofit from R12 to 134A with conversion additives. 5 simple steps to convert. Once you have removed the R12 from your system, attach the hose, add retrochill, attach the refrigerant label and add the R134a retrofit oil. Hose included.

Code	Description	Capacity	UOM	Master Qty
70501KIT	Retrochill R12 to R134A Kit	3oz / 89ml	Each	12
70510KIT	Retrochill R12 to R134A Kit - 10 x cans	3oz / 89ml	Each	1

Super Seal™

Super Seal Advanced™ AC/R Stop Leak & Dry R

Super Seal™ is a 2-in-1 system additive that will find and seal leaks in refrigeration systems. It also contains an eliminator to dry any moisture in the system, preventing waxing and acid formation.

Super Seal is a light, low viscosity particle free liquid that is directly placed into the system as a mist - as it travels with the refrigerant and oil throughout the system, the sealant exits the leak point and reacts with moisture in the air - this forms a low tensile crystalline structure that creates a permanent seal. Super Seal Advanced™ comes with a reusable hose.

Code	Description	Capacity	UOM	Master Qty
947KIT	Super Seal Advanced – up to 1.5 tons (5kW)	1oz / 30ml	Each	12
944KIT	Super Seal Advanced – 1.5 to 5 tons (5-17kW)	2oz / 59ml	Each	12
948KIT	Super Seal Advanced – 5+ tons (17Kw)	3oz / 89ml	Each	12

Super Seal Total™ AC/R Stop Leak & Dry R & Flash

Super Seal Total™ 3-in-1 dries, seals and includes Flash UV dye for a complete repair solution. Super Seal Total is fast and easy to install and requires no pump down or recovery. It's compatible with all oils and refrigerants and ideal for all systems including microchannel, heat pump and geothermal. Super Seal Total™ stops leaks now and prevents future ones too. Super Seal Total™ comes with a reusable hose.

Code	Description	Capacity	UOM	Master Qty
971KIT	Super Seal Total – up to 1.5 tons (5kW)	1oz / 30ml	Each	12
972KIT	Super Seal Total – 1.5 to 5 tons (5-17kW)	2oz / 59ml	Each	12

Super Change™

Super Change™ is the fast and easy way to complete a R22 system retrofit. It creates a strong compatibility link between all oils to any HFC refrigerants, including POE-based R407C & R410A – eliminating compressor downtime and line set flush. It boosts efficiency plus extends compressor life by maximizing heat transfer and oil return with drop-in refrigerants. Ideal for dry charge units, retrofits and drop-in refrigerants. One can treats systems up to 6 tons. The 20122 reusable hose is required - sold separately

Code	Description	Capacity	UOM	Master Qty
981	Super Change – up to 6 tons	2oz / ml	Each	6

pump house
sales@pumph.co.uk +44(0)115 900 5858

Flash™

Flash™ UV dye is an advanced class of highly concentrated ultra violet dye that uses DRY R™ instead of POE oil as its carrier. This, combined with our patented misting action, enables the dye to travel at the speed of the refrigerant while keeping the dye stable. One can treats up to 64 oz (1.8L) of oil. Flash UV dye uses the systems refrigerant as the propellant, creating a clean, no-mess injection every time. The 20122 reusable hose is required - sold separately.

Code	Description	Capacity	UOM	Master Qty
980	Flash – up to 5 tons (17kW)	0.14oz / 4ml	Each	12

Flash™ UV Detection Kits

98087KIT

Two kits are available which include 3 cans of the Flash™ UV dye, reusable clear hose, heavy duty storage case and a choice of UV torch light.

Code	Description	UOM
98084KIT	Flash Kit - 3 cans of Flash - Hose - with SEEKER Mini	1
98087KIT	Flash Kit - 3 cans of Flash - Hose - with SEEKER Max	1

Dry R™

Dry R eliminates moisture and increases system efficiency. It also dissolves blockages and frees up TEVs - preventing acid and waxing formation. Dry R is compatible with all oils and refrigerants and one can treats systems up to 5 tons.

Code	Description	Capacity	UOM	Master Qty
973KIT	Dry R Moisture Eliminator – up to 5 tons (17kW	1oz / 30ml	Each	12

Super Seal™

Sure Shot

Sure Shot™ Sealant Advanced with Eco Boost is a compressor-friendly method of permanently sealing leaks in AC/R systems. Eco Boost reduces noise and energy consumption, extends compressor life, plus eliminates 10 drops of water. It also enhances sealant performance, increases drier efficiency, while preventing waxing and acid formation. Sure Shot is added through an easy to inject syringe. One application works for systems up to 6 tons.

Code	Description	UOM	Master Qty
983KIT	Sure Shot Sealant Advanced HVAC/R Stop leak with hose	Each	12
984	Sure Shot Replacement Cartridge	Each	12
940	Sure Shot 1/4" SAE Reusable Hose	Each	1

Flex Inject®

Flex Inject Sealant Advanced is the fastest, most effective proven way to permanently seal and prevent minor air conditioning and refrigeration (AC/R) leaks. With no tools or gauges required, the Flex Inject sealant works by travelling through the system with the oil and refrigerant fixing leaks immediately. Flex Inject works with all compressors, heat pumps, condensers, and other system components and it will not plug up manifold gauges, metering devices, thermostatic expansion valves (TEVs), pistons or cause cap tube blockages. It meets the ASHRAE ARI 700 refrigerant standard and is compatible with any refrigerant including R-410A with no pump downs or recoveries required. Flex Inject is suitable for use in aluminium and copper coils and is microchannel friendly.

Code	Description	UOM	Master Qty
985	Flexi Inject Sealant Advanced for systems up to 6 tons	Each	6

Seal-N-Go™

Seal-N-Go makes charging 410A systems faster and easier than ever. Portable, easy to handle, self sealing refrigerant, permanently seals & prevents leaks. Reusable charging hose with easy to read gauge is sold seperately.

Code	Description	UOM	Master Qty
9410SSR	Seal-N-Go 410A Refrigerant & Super Seal Advanced	Each	6
20133	Reusable Charging hose with easy to read gauge	Each	1

Accessories

Pro Bubble Leak Detector Spray

Pro Bubble is an easy to use leak detector spray, ideal for locating gas and air leaks in pipes and equipment. It will not attack or react with metal surfaces and is highly efficient for the detection of ammonia, refrigerant gas and air leaks at below freezing temperatures.

Code	Description	UOM	Master Qty
PRO-BUBBLE-32	Pro-Bubble Leak Detector Spray – 32oz with spray top	Each	12

Cool-Weld™ Heat Barrier Spray

Cool-Weld ™ is a spray on gel heat shield for soldering, sweating and welding. Ideal for use on filter driers, pipes, valves, sheet metals, etc. Can be used on porous surfaces such as fabrics or drywall. As long as there is some Cool-Weld™ present the surface will resist charring.

Code	Description	UOM	Master Qty
COOLWELD-32	Cool-Weld Heat Barrier Spray – 32oz with spray top	Each	12

Pull A Spout Oiler

All purpose oiler with a 35cm telescoping spout. Zooms out for long shots, and in for short shots, even zooms around corners. Squeeze bottle action. Perfect lubricant for general industrial use. Contains four ounces of finest quality carbon free, rust and oxidation inhibited lubricating oil. Plastic container won't short out around electrical connections. No leakage

Code	Description	UOM	Master Qty
CO-1	Pull a spout oiler – 4oz (118ml) with telescoping spout	Each	12

Wypall Cloths

Heavy duty towels that absorb grease, oil, water and solvents from floors, hands, parts, tools and machinery.

Expanding Foam Sealant

A one component closed-cell expanding polyurethane foam sealant that is tack free in 20 minutes. Can be painted to prevent UV damage after 12 hours of drying time. Used to seal around doors, windows, pipes, ducts and vents - in fact, virtually anywhere. Foam contains fire retarding chemicals but is not rated as a fire stop product.

Code	Description	UOM	Master Qty
01714	Foam Sealant – 355ml	Each	12
01724	Foam Sealant – 591ml	Each	12

Silicone Sealants

Available in clear or white, DiversiTech silicone sealants are 100% food grade and can be used in applications for continuous use up to 232°C. It is UV and water resitant and has long term flexibility.

Code	Description	UOM	Master Qty
7-4000	Clear Silicone Sealant – 305ml	Each	12
7-4100	White Silicone Sealant – 305ml	Each	12

Diversi-Gum Sealing Compound

Diversi-Gum is a non-hardening, non-corrosive sealing compound that is immediately paintable and has a temperature usage range between -4°C and 49°C. It is ideal for sealing openings through foundations or refrigeration pipe entries.

Code	Description	UOM	Master Qty
6-202-1	Diversi-Gum - 0.5kg Slug	Each	24
6-202-2	Diversi-Gum - 1kg Slug	Each	20

Pro-Tite™ Resin Based Thread Sealant

A resin-based thread sealant that adheres to internal surfaces and fills voids While forming a fluid tight seal. Sealing from full vacuum up to 10,000 psi, Pro-Tite is specially formulated for use on metals and plastics subject to extreme vibration. Having a temperature range between -73°C to 204°C, Pro-Tite is impervious to most chemicals, including refrigerants, petroleum products, gases, steam etc.

Code	Description	UOM	Master Qty
CLL-1	Pro Tite Squeeze Tube - 39ml	Each	12

Accessories

Acid Test Kits

Detects acid in refrigeration oil. Convenient one step test means no chemicals are needed. Easy to evaluate, the colour change indicates acidity, the intensity of the colour indicates the amount of acid that is present in the oil sample.

ATL-1P	Acid Test Kit – with POE Oil	Each	1

Acid Eliminator

ACID-ELIM

Keeps acid away; compatible with all refrigerants and oils. Chemically neutralises and prevents acids that are formed in air conditioning and refrigeration systems due to refrigerant and refrigeration oil break-down, moisture, and compressor burnout. Easy-to-use, no complicated charts. Works fast, circulates quickly, and leaves no solids or solid residual. Will not harm system components. Can prevent system breakdown.

Code	Description	UOM	Master Qty
ACID-ELIM	Acid Eliminator - 115ml	Each	12

Flow-Plus™ & Pro-Treat™ Condensate Pan Treatment

A range of Drain Pan treatments to help prevent blockages resulting in condensate overflow. Simply place the tablets in the drain pan, where they will slowly dissolve in the condensate to give a prolonged cleaning action on the sludge. One or two tablets are recommended in each pan per month.

Quick Tap

Features a valve core in the 1/4in. male port. Simply pierce the line and back seat the needle. Flow starts when depressor type charging hose is connected.

QT-1

QT-2

Code	Description	UOM	Master Qty
QT-1	Quick Tap – 1/4", 5/16", 3/8" OD (6.4mm, 8mm, 9mm)	Each	1
QT-2	Quick Tap – 1/2", 5/8" OD (13mm, 16mm)	Each	1

Quick Tap-2

Identical to the quick tap except that a nylon handle replaces the hex wrench. Phillips-head screws are used

QTH-1

Code	Description	UOM	Master Qty
QTH-1	Quick Tap 2 – 1/4", 5/16", 3/8" OD (6.4mm, 8mm, 9mm)	Each	1
QTH-2	Quick Tap 2 – 1/2", 5/8" OD (13mm, 16mm)	Each	1

MAC - The Ultimate in Line Piercing Valves

Install valve, connect charging hose , then service. That's all there is to it with a MAC line piercing valve. MAC valves feature a uniport single connection for piercing and servicing. Sealed with refrigerant resistant 'O' rings, the needle automatically back seats after servicing to leave the line free of restriction.

QTM-1

Code	Description	UOM	Master Qty
QTM-1	Line Piercing Valve – 1/4", 5/16", 3/8" OD (6.4mm, 8mm, 9mm)	Each	1
QTM-2	Line Piercing Valve – 1/2", 5/8" OD (13mm, 16mm)	Each	1

Insta-Tap Refrigerant Recovery Tool

The fastest, easiest way to evacuate refrigerant before disposal of a unit. Snaps onto refrigerant line for full and immediate flow. Punctures super large hole for maximum full flow discharge to recovery unit. One tool fits all sizes from 3/16in. to 7/8in. (4.76mm to 22.2mm) O.D. hard tubing. Replaceable needle.

QT-100

RC-1 Insta-Charge

Faster, safer and a more economical method for charging LIQUID refrigerant through the low pressure side of an air conditioning or refrigeration system, without damaging the compressor. Insta-Charge's unique internal restrictor reduces liquid flow to a level below the capacity of the compressor. Converts liquid refrigerant to a saturated vapour for fast entry. Insta-Charge connects directly to the refrigerant can or cylinder valve. Adds liquid tracing dye faster. Eliminates heating of refrigerant cylinder. Made of light weight aluminium. Sold at a fraction of the cost of other fast charging devices.

Boiler, Heating & Renewables

Boiler Condensate Pumps

Tank Pumps

Pump House stock a range of boiler condensate removal pumps that are ideal when the boiler condensate can not be removed via gravity. The tank pumps use a small bore of flexible hose which can be routed above or below doors, windows or under kitchen cabinets.

When routing hose through any area which could be exposed to freezing temperatures, such as lofts, basements or garages, we strongly recommend increasing to at least 32mm plastic pipe and insulating.

PRVSure PRV & Condensate Pump

This pump is manufactured from high temperature plastic, and comes complete with 10m of higher specification hose

It meets EN Standards and can handle temperatures up to 110 degrees. Supplied with 10 metres of 'no sag' high grade braided hose. The unique design also cools the PRV discharge so it is safe for use with solvent weld pipework. For installers who are audited or working to EN Standards.

PH-3.8L-HW

* meeting BS6798:2014 PRV requirements

High Temperature Pressure Relief Pump - PH-5L-HW

Designed for unvented cylinder T&P discharge and steam humidifiers. Having one of the largest discharge rates of 32 litres per minute this pump can handle both high temperature up to 100 degrees and high flow rates.

Manufactured in the UK this heavy duty, high temperature tank pump incorporates thermal overload protection and a high level alarm switch.

PH-5L-HW

Code	Brand	Description	Max Head *	Max Flow	Temperature	Dimensioos mm (HxWxD)	Discharge Size mm
PH-5L-HW	Pump House	High Temperature & Pressure Relief Pump	8m / 20m	32 LPM (1920LPH)	100°c	350x190x260	15mm

* Max Heads - 8 metre for flow rates up to 25 Litres per minute / 20 metre for flow rates of 5 Litres per minute

Commercial Condensate Neutraliser - 20 & 30 Litres

Installing a neutraliser will reduce the impact of damage to existing boiler concrete drainage gullies and allow for the condensate to be disposed of safely.

The 20 litre stainless steel version can handle condensate from boilers up to 600kW by gravity. The 30 litre version comes complete with a pump to provide a 5.9 metre lift and a flow rate of up to 900 litres per hour. Both come with lime chippings for instant installation and are suitable for 2.8pH boiler condensate.

BCONDNEUT-20L*

BCONDNEUT-30L*

Soakaway & Condensate Bypass Valve

Soakaway Kit for Condensing Boilers

SOAK 1

'Soak up' boiler condensate with our soakaway. Where a suitable gravity drain is not available the soakaway can be used in conjunction with 10mm lime chippings.

Compatible with the following pipe sizes: 22mm (3/4") overflow, 32mm (1-1/4") and 40mm (1-1/2").

Top View

1. Dig hole (min depth) 400mm x 300mm in diameter, at least 500mm from the wall

2. Fill the bottom of the hole with 100mm depth of lime chippings.

3. Insert the soakaway tube with the lower drain holes facing away from the property.

4. Fill the remaining part of the hole and tube with lime chippings

5. Feed the pipework either into the top or through the side of the soakaway.

Code	Description	Height	Diameter	Inlet (inch)
SOAK1	Soakaway Kit for Condensing Boilers	300mm	110mm	22mm (3/4) 32mm (1-1/4) 40mm (1-1/2)

'Freezing Condensate Solution' Boiler Buoy Condensate Bypass Valve

Low cost, easy to install solution to bypass freezing pipes. Cutting a condensate pipe due to freezing has been common place over winter periods. The BB-1 Boiler Buoy condensate bypass valve is a solution that has been designed to be fitted during install, emergency call outs or whilst performing annual service visits.

A red float which when visible, indicates that the condensate pipe has a blockage or may be frozen.

The built in tap allows the householder to drain the condensate away safely and ensures that the heating of the property can continue to work.

Flexi Foot Universal

NBS Plus | riba product selector

The Flexi foot universal has three M10 inserts, offering support for small pipework and runs of cable tray, air source heat pumps and a variety of outdoor equipment. The installer is free to bolt their own strut of various lengths to suit any installation from 500mm to 3000mm in length. It can also be used to support both solar thermal and solar photovoltaic on flat roof installations.

FF-250-UNI

Code	Description	Length mm	Width mm	Height mm	Safe Working Load*	Weight

* It is the installer's responsibility to ensure that equipment weights do not exceed the safe working loads quoted and that the roof structure onto which these products are being applied is sufficiently sound to withstand the weight and point loading. If these products are used in contact with a PVC roof membrane the installer should seek advice from the membrane manufacturer on the possible migration of plasticizers and the effect of this on the roof guarantee. These products should not be used for any purpose other than that for which they have been designed and the products must no tbe modified in any way. Pump House accepts no liability for damage caused by the incorrect application or installation of these products

sales@pumph.co.uk +44(0)115 900 5858

Easy~Fit Brackets

Pump House offer a range of brackets which come flat packed, the Type 1 bracket has uprights and mounts directly onto the wall. Type 2 comes with a crossbar so that the uprights can be spaced exactly as required. The integral spirit level makes installation easier.

For improved corrosion resistance all metal now receives a 100% zinc plating, followed by a hard ED coating, before being finished with an external grade polyester textured powder coating in RAL 7032.

Process One
Corrosion resistant raw material often referred to as Zintec

Process Two
Zinc phosphating process multi stage cleaning & capping chemical zinc

Process Three
ED coating process electrophoretic deposition (aka ED or EPD) coating

Process Four
Epoxy polyester powder coating

We also offer a range of stainless steel brackets, which are recommended for coastal locations exposed to sea salt or in other corrosive environments.

* All brackets are tested to twice the safe working loads at an independent UK facility.

Easy~Fit Condensate Trays

The metal tray has a concave profile to ensure effective drainage. Supplied with fixing arms to hook over the bracket arms. For improved corrosion resistance all metal receives a 100% zinc plating, followed by a hard ED coating, before being finished with an external grade polyester textured powder coating in RAL 7032.

Code	Size	Description	Dimensions mm (LxW)	Drain Connection	Weight
CCTM-800	S	Metal Tray Small	800x400	1/2 BSP Male Thread	5.3kg

CCTM-1400	L	Metal Tray Large	1400x400	1/2 BSP Male Thread	8.3kg

Floor Bracket Kit

When units are mounted at floor level, condensate discharge needs to be directed towards a drain or soakaway to avoid condensate causing a slip hazard.

This floor bracket kit allows the metal tray to be mounted onto a flexi foot kit. The ASHP can then be mounted onto the bracket.

Code	Description	For use with	Pack Qty
CCTM-FLOOR-BRKT-KIT	Stainless Steel brackets with fixings	Flexi Feet / Trays	4

ASHP Soakaway

Removing air source heat pump condensate made easy! This unique pre-bagged textile soakaway is used to safely dispose of the condensate from all domestic sized ASHP where drain routing is not available.

The volume of condensate created from an ASHP up to 16kW can be between 10-15 litres per hour up to 2000 litres per year. This method prevents the condensate from flowing onto paths and driveways, which can freeze and cause a slip hazard.

* helps with MIS 3005 compliance and BRE 365

Code	Description	Inlet	Diameter	Height
ASHP-SOAK	Pre-bagged geo textile with rubber chippings *	32mm	400mm	400mm

Easy~Fit ASHP Guards

Pump House manufacture a range of weather-resistant, steel mesh guards, offering a safe solution to avoid vandalism or accidental damage of your expensive ASHP. The range is ideal for all manufacturers of ASHP units. The unique sliding panel system allows for easy installation, which are secured into place when the front panel is fitted. Back panels are also available to make the guard free standing. For high wall mounted units, we can offer a base panel for full security.

Easy~Fit Wooden Guards

Made from tanalised, pressure-treated timber. All panels are louvered to optimise air flow. Sized to protect both ASHP and AC units, these guards offer a solution for listed buildings and sites where aesthetics are a consideration. All components are flat packed, easy to install, assemble and transport.

Flexi - Base & Extender Frames

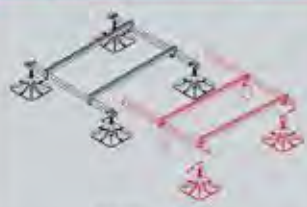
The BASE & EXTENDER frames are designed to provide stability and spread loads evenly across flat roof surfaces. Modular frames for ASHP systems and VRV/VRF systems

The galvanised steel frame raises equipment up to 405mm (higher heights available) above the flat roof level, permitting quick and easy access for roof maintenance.

Step One: Assemble a BASE FRAME

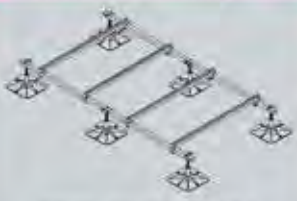
ORDER - PH-BF-B

Step Two: Need a bigger frame? Add an EXTENDER FRAME



ORDER - PH-EF-B

Step Three: Connect the BASE & EXTENDER FRAMES together



ORDER - PH-BF-B & PH-EF-B

Item	Material
FEET	Square - 320mm square UV stabilised - 90% polypropylene and 10% grp
LEGS	48mm diameter, 3mm galvanised steel tube. M24 galvanised steel height adjuster. 3mm galvanised steel U-clevis
BOX BEAMS	40mm x 40mm x 2.5mm galvanised box section
CROSS BEAMS	41mm x 41mm x 2.5mm galvanised steel slotted strut
FIXING BOLTS	M12 spun galvanised

Flexi Foot Eco-Packs

An economical solution for the support of solar PV and solar thermal.

Flexi eco-packs offer the installer a simplistic and fast solution for the support of photovoltaic panels and solar thermal units where value engineering is required. Supplied in pairs, and available in 400mm, 600mm and 1000mm lengths these feet come with a fixing pack (M10 and spring nuts), for rigid securing to the A frame. These feet offer a base foundation to secure a length of cable tray which in turn acts as a carrier for the concrete paving slab ballast.

Code	Description	Length mm	Width mm	Height mm	Safe Working Load*	Weight
FF-400-S	Flexi Foot with Strut – 400mm	400	185	100	280kg	4.6kg

FF-1000-S	Flexi Foot with Strut – 1000mm	1000	185	100	700kg	12.0kg

Portables - Cool Only & Heat / Cool Pump

The portable air conditioners are suitable for offices, computer rooms and light commercial use.

The heat and cool model can be used as an energy efficient form of heating along with cooling. The cooling only model is ideal for cooling flats, conservatories or loft conversions during hot summer months.

The units come with a hose, tray, remote control and wall kit. Spare parts are available upon request.

Flexible Hose & Insulation

Flexible Hose

Our flexible hose is designed to meet the requirements of the MCS MIS 3005 installation specification to allow the flow and return pipe work to connect to a heat pump. The flexible hose helps to avoid transmission of vibration in the pipe work and allows for a smooth blend when connecting the flow and return pipe to the heat pump or biomass boiler.

The 28mm hose is sleeved within a stainless steel braid for added protection, available in female or male BSP (British Standard Pipe) thread at one end and 28mm compression fitting at the other. The hose comes with 19mm thick weather proof, PVC coated insulation for UV stability and added robustness.

PVC Coated External Grade Insulation

External condensate pipe work needs to be insulated in a tough PVC coated weather protected covering to avoid UV degradation and animal damage. Boiler installation standards BS 6798-2104 makes specific reference to this grade of insulation. ASHP and Biomass Boilers tend to be located externally and this hot water pipe work needs to be protected and insulated to avoid heat loss, MIS3005 and building regulations advise a certain thickness of insulation to meet heat loss requirements. Our PVC coated range helps installations comply in both boiler condensate and ASHP installations.

Code	Description	Length	Diameter	Thickness	ID
FH-I-1000-15	PVC Coated Weather & Waterproof Insulation	1000mm	41mm	13mm	15mm

sales@pumph.co.uk +44(0)115 900 5858

Pre-Slit & Seal Weatherproof Insulation

Our new pre-slit & seal PVC coated insulation provides outstanding protection against freezing, for external boiler condensate pipe work and external heating pipe work on ASHP & biomass boilers. This new design offers a quick and secure 'tape free' installation, with its peel and seal join and its self-adhesive wrap over flap. Fully compliant with the Boiler Installation Standards BS6798:2014, the tough PVC coating is both weatherproof and UV stable.

Step One

Open the pre-slit insulation

Step Two

Wrap around the pipe, peel away yellow cover and seal together. Use the adhesive flap to secure.

Step Three

Condensate pipework is now fully protected with NEW pre-slit weatherproof insulation

Meets BS 6798:2014 Boiler Installation requirements

Code	Description	Length	Thickness	ID
FH-I-1000-35-SLIT	Pre-Slit Insulation – 35mm ID	2000mm	19mm	35mm

FH-I-1000-22-SLIT	Pre-Slit Insulation – 22mm ID	2000mm	19mm	22mm

Through Wall Insulation Kit

Running pipe work from an externally mounted air source heat pump or biomass boiler into a property requires the pipe work to be run through the exterior wall. The hot pipe work will be affected by cold bridging and heat loss if it is not insulated correctly. MIS 3005 requires external pipe work to be adequately insulated. This kit provides both thermal insulation within the wall and comes complete with an elbow section to cover the external copper pipe connection.

Step One

Select a 65mm core drill

Step Two

Drill 2x 65mm holes next to each other

Step Three

Insert the PVC sleeve insulation, recess it to allow room for the elbow

Step Four

Fit the elbow over the copper pipes

Code	Description
TW-KIT	Sleeved PVC coated insulation kit – 19mm (2 x elbow & 2 x straight connectors)

INABA DENKO

100mm Trunking

The Inaba Denko 100mm trunking will ensure that the refrigeration pipes from an air source heat pump are protected with a professional finish. Available in ivory and black to match most brands of condensing units available. MIS 3005 requires all external refrigeration pipe work on split and hybrid systems to be housed in trunking.

Rotary Enclosed Isolators

Rotary Enclosed Isolators

Our insulated 3 and 4 pole rotary enclosed isolators are CE marked and suitable for disconnecting the power supply to outdoor air source heat pumps and air conditioning units.

The isolators are weatherproof to IP65, easy to install, conform to IEC 60947-3. They have a lockable off position and interlockable cover which can be removed only in the off position. Earth and neutral terminals included and M20/25 knockouts up to 63A.

Pro Universal™

A frequent maintenance programme is vital for the efficient running and cost effective operation of Air Source Heat Pumps. DiversiTech has developed this range which not only cleans very effectively, but also has virtually no detrimental long-term effect on the equipment.

Pro-Universal™ features a special inhibitor that prevents its alkaline ingredient from attacking the coil. Instead it concentrates solely on actively breaking down soil and dirt. Pro-Universal & G2G Universal are NSF registered as food safe for use in food preparation areas.

Cool-Weld™ Heat Barrier Spray

Cool-Weld ™ is a spray on gel heat shield for reducing heat transfer during soldering, brazing and welding. Ideal for use on pipes, valves, sheet metals, etc. Can be used on porous surfaces such as fabrics or drywall. As long as there is some Cool-Weld™ present the surface will resist charring. Easy to wipe off with a damp cloth after use.

Code	Description	UOM	Master Qty
COOLWELD-32	Cool-Weld Heat Barrier Spray – 946ml with spray top	Each	12

Telescopic Inspection Mirrors

Fast, accurate visual inspection of hidden and hard to reach areas with an almost limitless number of positions. Double ball joint links swivel mirrors for viewing 360 degrees. Precision engineered links are made from tempered spring steel to withstand the streses of constant repositioning. Moves freely and holds in the desired position.

Code	Description	Qty
M-1	Mirror 1-1/4" circular – extends 32mm - 463mm (6-1/4" to 18-1/4")	1
M-1R	Replacement Head for M-1	1
M-2	Mirror 57mm (2-1/4") circular – extends 254mm - 355mm (10" to 14")	1
M-2R	Replacement Head for M-2	1
M-3	Mirror 54mm x 183mm (2-1/8" x 3-1/2") rectangular – extends 285mm - 387mm (11-1/4" to 15-1/4")	1
M-3R	Replacement Head for M-3	1
M-4	Mirror 22mm (7/8") Circular – extends 165mm (6-1/2")	1
M-5	Mirror 25mm x 50mm (1" x 2") Oval – extends 191mm (8-1/2")	1

Wypall Cloths

Heavy Duty towels that absorb grease, oil, water and solvents from floors, hands, parts, tools and machinery.

Code	Description	UOM	Qty
5-05790	WypAll Plus Towels – White, pack of 100	Each	Pack of 100

Expanding Foam Sealant

A one component closed-cell expanding polyurethane foam sealant that is tack free in 20 minutes. Can be painted to prevent UV damage after 12 hours of drying time. Used to seal around doors, windows,pipes, ducts and vents - in fact, virtually anywhere. Foam contains fire retarding chemicals but is not rated as a fire stop product.

Code	Description	UOM	Master Qty
01714	Foam Sealant – 355ml	Each	12
01724	Foam Sealant – 591ml	Each	12

Silicone Sealants

Available in clear or white, DiversiTech silicone sealants are 100% food grade and can be used in applications for continuous use up to 232°C. It is UV and water resitant and has long term flexibility.

Code	Description	UOM	Master Qty
7-4000	Clear Silicone Sealant – 305ml	Each	12
7-4100	White Silicone Sealant – 305ml	Each	12

Diversi-Gum Sealing Compound

Diversi-Gum is a non-hardening, non-corrosive sealing compound that is immediately paintable and has a temperature usage range between -4°C and 49°C. It is ideal for sealing openings through walls from pipe work.

Code	Description	UOM	Master Qty
6-202-1	Diversi-Gum - 0.5kg Slug	Each	24
6-202-2	Diversi-Gum - 1kg Slug	Each	20

Flexi Patch™

Flexi-Patch™ is an easy to use flexible repair patch ideal for repairing almost any surface. It cures quickly using only UV light from sunlight or a UV flashlight for a long lasting, permanent repair.

Flexi-Patch is a fiberglass-reinforced polyester ideal for use on PVC, plastics, metal, wood, concrete and more. It's the easy way to permanently patch almost any surface. It dries hard for permanent repair. Can be drilled and painted once dry. Capable of handling pressures upto 500psi and temperature range -26°C to 150°C

Code	Description	UOM	Master Qty
FP-36	Flexi Patch Fibreglass repair patch – 75mm x 150mm – 10 per pack	Each	20

Plastic Pipe Clamps / Non-Return Valves

Our plastic pipe clamps are designed to connect overflow or waste hose pipe to an existing 32mm (1-1/4") or 40mm (1-1/2") pipe. To avoid waste water flowing back up the pipe work our non-return valves can be used on overflow pipe or waste hose pipe.

Flexi Support

Light - Flexi Base & Extender Frames

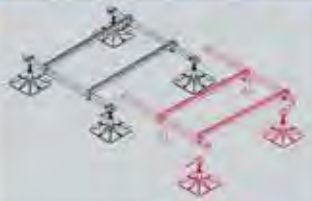
BASE & EXTENDER frames are designed to provide stability and spread loads evenly across flat roof surfaces. Modular frames are ideal for a/c split systems and VRV/VRF systems.

The galvanised steel frame raises equipment up to 405mm (higher heights available) above the flat roof level, permitting quick and easy access for roof maintenance.

Step One: Assemble a BASE FRAME

ORDER - PH-BF-B

Step Two: Need a bigger frame? Add an EXTENDER FRAME



ORDER - PH-EF-B

Step Three: Connect the BASE & EXTENDER FRAMES together

ORDER - PH-BF-B & PH-EF-B

Item	Material
FEET	Square - 320mm square UV stabilised - 90% polypropylene and 10% grp
LEGS	48mm diameter, 3mm galvanised steel tube. M24 galvanised steel height adjuster. 3mm galvanised steel U-clevis
BOX BEAMS	40mm x 40mm x 2.5mm galvanised box section
CROSS BEAMS	41mm x 41mm x 2.5mm galvanised steel slotted strut
FIXING BOLTS	M12 spun galvanised

Everyday - Flexi H-Frame Kits

F-HF-500

F-HF-320

Our H-frame kits offer the installer full flexibility by providing a solution where they can supply their own strut to suit their installation requirements.

The H-frame kits are supplied with a pair of either our 320mm feet, most widely used in the majority of installations, or where heavier more demanding loads are present, then our 500mm foot version kit is available.

All kits are supplied with hot dip galvanised angle brackets together with all the necessary fixings to assist the installer in a low cost, versatile and fast assembly solution on site. Complete strut assembled frameworks, (H-frame kits where the strut is also supplied), are available upon request.

Code	Description	Foot Size	Safe Working Load**	Weight
F-HF-320	Flexi H-Frame Kit - 2 square black feet with fittings*	320mm x 320mm	250kg	4kg
F-HF-500	Flexi H-Frame Kit - 2 square black feet with fittings*	500mm x 500mm	600kg	13kg

Item	Material
FEET	Square - 320mm and 500mm square UV stabilised - 90% polypropylene and 10% grp
MAT	100% natural rubber, (mat is adhered to the feet)
FIXINGS	M10 ZP sets, spring washers and nuts
ANGLE BRACKETS	Mild steel, hot dipped galvanised BS EN ISO 1461:2009

* NB - the lengths of the strut are not supplied with this kit. ** As the strut is not supplied with the kit, the maximum load is a guide only

** It is the installer's responsibility to ensure that equipment weights do not exceed the safe working loads quoted and that the roof structure onto which these products are being applied is sufficiently sound to withstand the weight and point loading. If these products are used in contact with a PVC/TPO roof membrane the installer should seek advice from the membrane manufacturer on the possible migration of plasticizers and the effect of this on the roof guarantee. These products should not be used for any purpose other than that for which they have been designed and the products must not be modified in any way. Pump House accepts no liability for damage caused by the incorrect application or installation of these products..

Everyday - Flexi Foot With Strut

Flexi Foot With Strut – These feet can support pipework, cable tray, and can also be used to mount air conditioning units, air source heat pumps and a variety of outdoor equipment.

Solar thermal and solar photovoltaic on flat roof installations can also be accommodated. Made from heavy duty recycled rubber. The 21x41mm galvanised steel strut is supplied bonded to the rubber. Drain slots are molded to the underside of the foot.

Item	Material
RUBBER	Compression moulded using milled, sieved and graded, recycled rubber bound with high quality adhesive
DENSITY	1.0kg / cm³
STRUT	41 x 21 x 1.5mm galvanised steel

Code	Description	Length mm	Width mm	Height mm	Safe Working Load*	Weight

sales@pumph.co.uk +44(0)115 900 5858

Everyday - Flexi Foot Universal

The Flexi Foot Universal has three M10 inserts, offering support for small pipework and runs of cable tray, for air source heat pumps and a variety of outdoor equipment. The installer is free to bolt their own strut of various lengths to suit any installation from 500mm to 3000mm in length. It can also be used to support both solar thermal and solar photovoltaic on flat roof installations.

FF-250-UNI

Code	Description	Length mm	Width mm	Height mm	Safe Working Load*	Weight
FF-250-UNI	Flexi Foot Universal – 250mm	250	185	100	125kg	2.8kg

Item	Material
RUBBER	Compression moulded using milled, sieved and graded, recycled rubber bound with high quality adhesive
DENSITY	1.0kg / cm³
INSERTS	M10 (metric course thread) x 20mm zinc plated steel, through inserts
MAX. TORQUE (INSERTS)	15Nm
MAX. LOAD (INSERTS)	25kg

* The maximum load quoted is 25kg per insert and have been tested with a 4:1 safety ratio.

Flexi Fix Clamp

The Flexi Fix Clamp is used to add stability particularly with twin fan units. The Fix Clamp can be secured to the floor with anchor bolts.

FF-FIXCLAMP

Code	Description	Length mm	Width mm	Height mm
FF-FIXCLAMP	Flexi Foot Fix Clamp	240	60	103

Flexi Fix Packs

To complement our range of Flexi Feet we have created two versions of fix packs in either spring nut or T bolt. The packs contain bolts, nuts and washers for the installation of a pair of feet for a single condensing unit.

FF-FIXPACK

FF-FIX2

Code	Description
FF-FIX-PACK	Components with spring bolts to secure an outdoor AC unit – for 2 Flexi Feet
FF-FIX-2	Components with T bolts to secure an outdoor AC unit – for 2 Flexi Feet

Protection Fleece

Geotextile polyester fleece for PVC/TPO field membrane protection. Sold by linear metre. Please specify requirements.

MPF-12

Code	Description	Density
MPF-12	Protection Fleece – 2000mm x 1000mm	300gsm

Flexi Foot - Variations

To complement our range of Flexi Feet we have an number of variations on the standard flexi foot with strut. The foot only options are available in 200, 350 and 500mm with angle pitch variants.

PH-FO-350-5.0-S

Heavy - Flexi Twin Frames

Frames for large pipes, air handling units, chillers and packaged plant rooms. These robust & versatile free standing modular frames are supplied with fully adjustable leg assemblies in 500mm square polypropylene feet, incorporating anti-vibration rubber mats adhered to the underside. Robust 50 x 50mm box cross bars are 5mm thick to cater for mid-span point loads, resulting in even load dispersal through the framework down to each foot.

The optional mounting plate can be purchased in addition or as an alternative to the adjustment being in the leg assemblies. Therefore a non-adjustable twin is also available.

F-TWIN-500-A

Application: Suitable for heavier building services such as large air handling units, chillers and packaged plantrooms. An ideal solution when the criteria to target existing roof beams is necessary. The twin frames can be targeted immediately above to assist direct load transfer to exisiting roof beams below: a common requisite in weaker roof designs.

Item	Material
FEET	Square - 500mm square UV stabilised - 90% polypropylene and 10% grp
MAT	100% natural rubber, (mat is adhered to the feet)
LEGS	48mm dia. 3mm stud steel tube with M24 stud adjuster and 4mm thick U clevis to top
CROSS BARS	50x50x5mm SHS (Square hollow section) with optional mounting plate if required
FINISH	Hot dip galvanised steelwork BS EN 10219-1: 2006 Galvanising BS EN ISO 1461:2009 Salt Mist Testing: BS EN 60068-2-52-2018

Double Mounting Plate
Part Code - F-TQ-ADJ-D

Single Mounting Plate
Part Code - F-TQ-ADJ-S

Code	Description	Length mm	Width mm	Height mm	Weight	Max Load

F-TQ-ADJ-D	Double Mounting Plate	250mm	150mm	170mm (adjustable)	8kg	-

Heavy - Flexi Quad Frames

These robust & versatile free standing modular frames are supplied with fully adjustable leg assemblies and 500 x 500mm polypropylene feet, which incorporates anti-vibration rubber mats adhered to the underside. Robust 50 x 50mm box end bars and cross bars both being 5mm thick in section, cater for picking up the point load mid span, resulting in even load dispersal through the framework down to the feet. The optional adjuster plate can also be purchased and these are supplied with fixings.

F-QUAD-500-A

Application: Suitable for heavier building services such as large air handling units, chillers and packaged plantrooms. Quads are particularly useful for managing heavy loads, and as a direct replacement for traditional concrete plinths, as they can be re-positioned to accommodate late design changes

Item	Material

Heavy - Flexi Modular Frames

Modular robust frames for large air handling units.

These robust free standing modular frameworks are supplied with fully adjustable leg assemblies and 500 x 500mm polypropylene feet, incorporating anti-vibration rubber mats adhered to the underside. Robust 50 x 50mm square hollow section end bars are 2.5mm thick and are supplied with either 50 x 50mm, or 100 x 50mm cross bars. With a variety of sizes available for both our end bars and cross bars, a suitable framework can be designed to suit many applications where a strong support is key.

Application: Suitable for heavier building services such as large air handling units, chillers and air cooled condensers. Our unique 'drop on ' cross bars offer a faster alternative when erecting the framework compared with some slide on systems.

Heavy - Flexi Custom Frames

Custom robust frameworks for the support of complex and heavy building services.

These custom solutions are frequently manufactured from 100 x 50mm parallel flange channel and/or 100x 100mm HEB (European Beam) and supported off fully adjustable leg assemblies utilising our larger 500 x 500mm polypropylene feet, incorporating anti-vibration rubber mats adhered to the underside. However larger steel sections are available dependant on project requirement and/or mass or size of the services being supported. All frameworks are hot dip galvanised. We will provide an AutoCAD drawing proposal together with load calculations prior to manufacture.

Application: Suitable for heavier chillers, packaged plantrooms, or complex shaped building services, typically air handling units. Steelwork comes with all necessary fixings and the correct amount of leg assemblies/feet. These are manufactured in the UK offering a very fast lead time.

Item	Material
FEET	Square - 500mm square UV stabilised - 90% polypropylene and 10% grp
MAT	100% natural rubber, (mat is adhered to the feet)
LEGS	Custom manufactured to suit most heights and welded frames. Supplied with M24 adjuster stud for levelling
FRAME	Dependant on load/span
FINISH	Hot dip galvanised steelwork BS EN 10219-1:2006 Galvanising BS EN ISO 1461:2009. Salt Mist Testing: BS EN 60068-2-52:2018

Information Required	AHU Requirements	Chiller Requirements	Packaged Plantroom Requirements

Access - Flexi Step-Overs & Hop-Overs

Safe access solutions designed and manufactured to current British Standards.

With the introduction of The Work at Height Regulations back in 2005, the regulations apply to all work at height where there is a risk of a fall liable to cause personal injury. This regulation places duty on employees, the self employed and any person that controls the work of others, e.g. facility managers, building owners/end users etc. Flexi access solutions are designed to current British Standards; we offer full working drawings, site surveys and all our access range is manufactured in the UK. GRP options are also available upon request. So whether it's a cat ladder, companion way ladder, stairs, ramps, walkways or a combination of all these, flexi access will provde you and your workforce with a safe access solution. We can also offer a custom design service to suit your needs.

Application: Step-Overs to bridge ducts, pipes and electrical containment; custom solutions to access maintenance doors to AHU's chillers or other rooftop services, ramped access solutions where wheel barrow / sack barrows are used and straight foward elevated access solutions. Cat ladders and companion way ladder also available.

Item	Material
FEET	Square - 320mm square UV stabilised - 100% polypropylene
MAT	320mm feet only - 100% natural rubber, (mat is adhered to the feet)
LEGS	Step-Overs; 48mm dia. 3mm stud steel tube with M24 stud adjuster and 3mm thick U clevis to top
LEGS	Hop-Overs; 40x40x2mm SHS (Square hollow section)
HAND RAILS	33.7mm diameter mild steel
TREADS / FLOORING	25x3mm open grid flooring. (41/100 bearing bars) and designed to 7.5Kn/M² Loading BS4592 part 1
FINISH	Hot dip galvanised steelwork BS EN 10219-1:2006 Galvanising BS EN ISO 1461:2009. Salt Mist Testing: BS EN 60068-2-52:2018

F-HO-HR	Flexi Hand Rail for Hop Over	–	–	–	–

Access - Flexi Custom Platforms & Walkways

A tailored solution to fit around existing rooftop building services.

Flexi custom platforms and walkways are designed to provide solutions for maintenance and fire exit access. We can visit sites and carry out a thorough survey from which we generate AutoCAD drawings. These will be forwarded for approval to the project team prior to manufacture. They are manufactured from mild steel with a hot dip galvanised finish. Alternatively we can offer aluminium or GRP solutions upon request. Designed to comply with British Standards, these versatile and easy to assemble solutions are supplied with M24 adjustable legs, (to cater for the roof fall), and supported by our 320mm square feet.

Application: Generally positioned on flat roofs providing access to rooftop building services and fire exit access solutions.

Item	Material
FEET	Square - 320mm square UV stabilised - 100% polypropylene
MAT	320mm feet only - 100% natural rubber, (mat is adhered to the feet)
LEGS	Step-Overs; 48mm dia. 3mm stud steel tube with M24 stud adjuste and 3mm thick U clevis to top

Pump House supply access solutions that utilise stairs, companion way ladders or cat ladders, or a combination of all of these. Ramped access solutions are also available upon request. Manufactured to current British Standards, Pump House supply the solutions flat packed with all necessary fixings for quick assembly on site by others. We offer an efficient manufacturing and galvanising process and can supply goods to site usually within 10-15 working days.

Rotary Enclosed Isolators

Rotary Enclosed Isolators

Our insulated 3 and 4 pole rotary enclosed isolators are CE marked and suitable for disconnecting the power supply to outdoor air conditioning units.

The isolators are weatherproof to IP65, easy to install, conform to IEC 60947-3. They have a lockable off position and interlockable cover which can be removed only in the off position. Earth and neutral terminals included and M20/25 knockouts up to 63A
