

# G2G-Universal

## Ready Mixed Universal Coil Cleaner

Nonfood Compounds  
Program Listed P1  
Registration 144255

### G2G-UNIVERSAL

G2G-Universal (Good To Go) is a high performance coil cleaner that can be used on both evaporator and condenser coils to provide safe and highly effective cleaning with a minimum of time and effort. G2G-Universal is an NSF Food-Safe registered product that can be used to clean air conditioning and refrigeration equipment in food preparation and storage areas as well as restaurants and kitchens etc. It protects coils and can also be applied to drain trays to clean and protect metal surfaces.

**Can be used for :-**

**Evaporator cleaning, condenser cleaning and as a service cleaner for fan blades, air filters etc.**

- **Ideal for indoor and outdoor coils**
- **Degreaser, detergent, deodoriser**
- **Protects coils and is safe for condensate pumps**
- **Fin friendly formula – removes the dirt not the metal**
- **NSF Food-Safe registered product – can be used in food preparation and storage areas**

**INSTRUCTIONS:** Wear eye and skin protection when applying product to avoid irritation. Turn off unit before cleaning. Spray on G2G-Universal liberally to coil surface. Allow 5-10 minutes for solution to react and dissolve contaminants. Product is self rinsing on evaporator coils in cooling mode as condensate will rinse the coil. Rinsing is recommended on condenser coils.

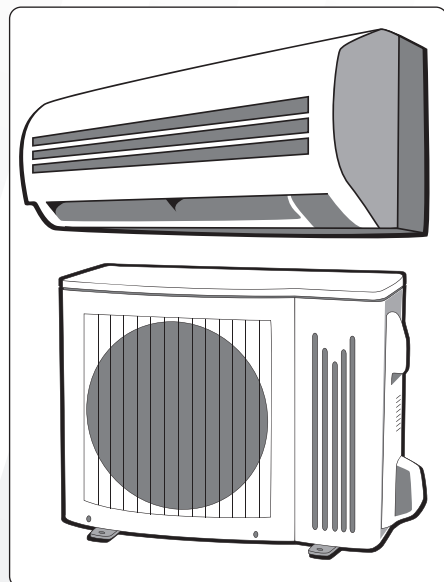

**Irritant**

**CAUTION :** Irritating to skin and eyes.

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of soap and water. Wear suitable protective clothing, gloves and eye / face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). This material and its container must be disposed of as hazardous waste.

Material Safety Data Sheet available for professional user on request.
