Winners of our Promotions:

In February we launched two different promotions, both running for all Contractors and Wholesalers – did you join in?
If not, you have missed an opportunity to win either some of our Tough Tool Boxes filled with chocolate hearts or Pump House plonk!

Our first Promotion was very simple: the only thing you had to do was to subscribe to our Newsletter [here](#), we have drawn two lucky winners who have now won a bottle of wine:

Murray Sharp - Kooltech Ltd
Chris Gibson - Adcock Refrigeration and Air Conditioning Ltd

Congratulations!

Our second Promotion was a little bit more challenging than the first one: a Valentine's Crossword and everyone who took part had to fill this enigma with the correct terms. Below is a list of five lucky winners who received Tough Tool Boxes filled with heart shaped chocolates.

Chris Willson - Climate Center
Damian Price - Fixxy Ltd
Steve Simpson - 4 Way Refrigeration Ltd
Owen Hughes - Plumbase
Kaya Holford - BES Ltd

Congratulations!

Keep an eye out for more promotions yet to come.

Case Study: Flexi Support Systems - Flexi Frames

Project: Indigo Hotel, Queens Street Cardiff

Products: Flexi Light – Flexi Base & Extender Frames, Flexi Heavy – Ahu Frameworks, Flexi Everyday – Duct, Pipe and Electrical Containment

Services: VRF Condensers & Air Handling Units

Roof build-up: Warm Roof Design – PIR/PUR Insulation with PVC/TPO Field Membrane

Dominion House was a 6000m² empty office block in Cardiff City Centre. Purchased in 2015 to become a 100-bedroom hotel with rooftop Marco Pierre White Steakhouse Bar & Grill, this development is soon to be named Indigo Hotel. Global hotelier, Hotel Indigo, currently operates 60 hotels worldwide.

CMB Engineering Cardiff Limited, the Building Services Contractors working on the project, chose Pump House on the day to supply all the rooftop building services support frameworks.

Supplied via [BSS](#) in Cardiff, our hot dip galvanised frameworks were specifically supplied in lengths and widths to suit each unit being supported. With all products being available from stock, the contractor could order frameworks in stages, to suit the phased project programme, and eliminated having to find space within an already restricted working environment for everything to be delivered at once.

With a fast installation time, all frameworks could be assembled quickly, even on the morning of the crane lift! All support frames come complete with adjustable legs incorporating M24 height adjusters to enable the installer to level the frameworks against typical flat roof falls.

More information about our Flexi Support Systems find [here](#).

New Product: DiversiTech Flexi-Patch™

Repair almost any surface with Flexi-Patch™

What is Flexi-Patch™?

Flexi-Patch is a fiberglass reinforced polyester patch ideal for repairing almost any type of surface and can be used on PVC, plastics, metal, wood, concrete and more. It's the easy way to patch and repair almost any surface and it dries hard for a permanent repair and can be drilled, tapped and painted.

It is easy to use and it cures quickly using only UV light from sunlight or a UV flashlight for a long lasting, permanent repair.

DIVERSiTECH

FEATURES

- Extremely durable fiberglass reinforced patch
- Flexible and waterproof
- Weather and UV resistant
- Temperature safe from -30°C to 365°C
- Will not shrink or expand during or after application
- Bonds to all surfaces except polypropylene
- Cure quickly – as fast as 5 minutes.
- Generous 3" x 6" (75 mm x 150 mm) size which can be cut to size as required

WE ARE LOOKING FOR YOU! YES, YOU!

We are looking for 5 engineers to trial specific products

If you are a contractor and are happy to review our products we would love to hear from you.

Contact us with your details and the product you would like to try.
