## Case Study: Flexi Support Systems - Flexi Frames

**Project:** New Facebook Data Centre, Clonee, Co. Meath in Ireland.

**Products:** Flexi Heavy – Modular Frameworks & Flexi Access – Bespoke Access Platforms.

**Services:** Air-Handling Units & Associated Access Requirements.

**Roof Build-Up:** Warm Roof Design – PIR/PUR Insulation with PVC/TPO Field Membrane.

The new €200 million Facebook Data Centre in Clonee, Co. Meath in Ireland will be one of the most advanced and energy efficient data centres in the world. Featuring the latest I.T. servers, storage and networks all powered by 100% renewable energy.

Pump House were proud to have been chosen as the preferred supplier of building services support systems to the project, with support frames required for fourteen rooftop air-handling units. Each framework was also accompanied by a bespoke access platform to one longitudinal side of the air-handling units for maintenance purposes.

The air-handling unit frameworks had to achieve specific target heights of 800mm and 1000mm in height above the finished roof level, whilst also contending with a 2-degree roof fall. Pump House supplied purpose made leg assemblies with their heavy duty Flexi-Frames to achieve these specific project requirements.

The access solutions were designed to comply with current British Standards and were delivered in flat packed kits for quick assembly on site. [Dornan Engineering](#), the Mechanical contractors working on the project were delighted with the install of our products.

More information about our Flexi Support Systems find [here](#).

# Little Giant Condensate Pump Options

(clicking on each Pump shows you additional technical information)

## Number 1 Little Giant Distributor in UK now and always!

Pump House have been dealing with Little Giant for over 16 years, but the relationship has been established over 40 years ago!

These pumps are all available from us:

**We are  
now fully  
stocked  
with  
portables  
ready for  
distribution**

**Call us  
now on:  
+44(0)115  
900 5858**

## Pump House Portable Air Conditioning - In Stock!

This portable air conditioner is suitable for offices, computer rooms and light commercial use. It is also ideal for cooling flats, conservatories or loft conversions during hot summer months.

The heat pump model can also be used as an energy efficient form of heating during the cold winter months.

- Meets EN14511 standard & EU commission regulation 206/2012
- No pump required - self evaporating condensate
- LED display and remote control (both models)
- Flexible exhaust hose - 1.5m (both models)
- Proven well-tested designs
- Suitable for areas up to 26m<sup>2</sup>
- R410A Refrigerant

## DiversiTech® Acquires Rapid Positioning Clips Ltd

*Acquisition Provides HVAC Wholesalers and Contractors with Additional Product to Grow Their Business*

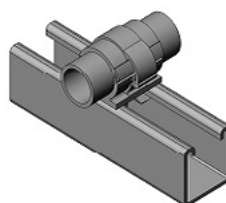

**ATLANTA — March 23, 2017** – DiversiTech Corp., a leading manufacturer and supplier of HVACR parts and accessories, announced today that it has purchased Rapid Positioning Clips Ltd. (RPC), a U.K. based maker of high-quality clipping products that quickly and easily fit with a variety of channels to seal pipework, electrical wires and cables. The acquisition, completed on March 22, provides HVACR distributors and contractors with another useful product line they can use to grow their businesses and simplify their work.

### Products include:

The studding clip is a unique one-piece design manufactured from a composite polyamide alloy combining strength with light weight. It will overcome the problems of using cable ties for piping, electrical, optical and network cabling.

**Rapid Positioning Clip** an industry-established method of supporting copper refrigerant tube is the channelmounted RPC. Ideal for multiple pipe runs, the onepiece, composite polyamide (nylon) alloy clamp absorbs shock and vibration.
