

## ACID ELIMINATOR

### Removes and prevents acids

The Acid Eliminator keeps acid away, and is compatible with all refrigerants and oils. This product chemically neutralises and prevents acids being formed in air conditioning and refrigeration systems, due to refrigerant and refrigeration oil break-down, moisture, and compressor burnout.

Easy-to-use with no complicated charts. Acid Eliminator works fast, circulates quickly, and leaves no solids (or solid residuals).

Acid Eliminator will not harm system components, and prevents system breakdown

## FEATURES

- Easy-to-use
- Fast acting
- Inhibits corrosion
- OEM accepted technology
- Compatible with all refrigerants and oils

## RELATED PRODUCTS

- Acid test kits
- Flow-Plus and Pro-Treat condensate pan treatment

## THE PACKAGE

- 115ml bottle

## INSTRUCTIONS

- 1 Replace compressor if burned out.
- 2 Measure the acid level in the refrigerant system using an acid test kit
- 3 Determine the compressor's volume of lubricating oil
- 4 Add 29ml of Acid Eliminator per portion of compressor oil volume and indicated acid level, as shown in the table below.
- 5 After system has run for an hour, repeat test for residual acidity. repeat step 4 if necessary.

LOW	1892ml / 64oz
MEDIUM	1419ml / 48oz
HIGH	710ml / 24oz

Part code	Description	UOM	Box QTY
ACID-ELIM	Acid Eliminator - 115ml	Each	12

### WARNING:

May be harmful if swallowed and enters airways.  
May cause long-lasting harmful effects to aquatic life.  
Causes mild skin and eye irritation.

ASPIRATION TOXICITY: CATEGORY 1 AQUATIC CHRONIC: CATEGORY 4
