

ACID TEST KIT

Acid testing

Detects acid in refrigeration oil. A convenient, one-step test that means that no chemicals are needed. Easy to evaluate with a colour change indicator that detects acidity. The more intense the colour, the more acid that is present in the oil sample.

This kit features new technology requiring only a quarter the amount of oil to do a test.

FEATURES

- For refrigeration oil
- 4 tests with 1 kit
- Less oil sample required
- 1 step and no chemicals to pre-mix

RELATED PRODUCTS

- Acid Eliminator
- Flow-Plus and Pro-Treat condensate pan treatment

THE PACKAGE

- all you need for 4 tests
